

The gray bleed area is used to make the pole pocket and attach the panel to the display. background of artwork should be bled through this area, but won't be visible.

AERO DISPLAY PANEL

Viewable Graphic Area
Top 47"x 79.125" (white area)

Trim Size
47"x 88.875" -----

Graphic Size with Bleed
(Background should extend to here)
48"x 89.875"

- CMYK color
- Resolutions must be 100-150ppi
- All fonts must be converted to outlines (Illustrator)
- Embed all images in final document (Illustrator)
- **Delete template/notes layers and save as PDF for print**

While designing, it's a good idea to zoom to 100% and scroll throughout layout to check artwork print quality.

Designers: Final layout should be proofed with client before being sent in for printing.

Green Line Indicates Stitch Line
