Impact LightWave 3.3 X 3.3ft Double-Sided Counter Lightbox Display

Attract attention with the Impact LightWave 3.3 X 3.3ft Double-Sided Counter Lightbox Display! The vibrant backlit graphics will turn heads at your next show and get visitors to your booth. Having backlit graphics at a trade show or event is a proven winner to draw attention from a distance to bring potential clients to your product or service!

The advanced technology of the new LightWave modular lightbox system combines innovation with intuition. Toolless down to its feet, LightWave is designed to help heighten your display experience. Magnetic electrical connectors light up the UL certified LED lights that come pre-installed in the profiles. Electrical wires stay hidden from view. Edge-to-edge customizable SEG backlit fabric graphics cover the front and back of the aluminum frame. Portable, configurable, desirable, LightWave is a lightbox, unlike the others. LightWave is so well thought out, even its durable foam cut carry bag is made distinctly to keep all parts and pieces protected and organized.

[Impact 5×7.5 Lux Lightbox Backlit Fabric Display](#)

Impact 5×7.5 Lux Lightbox Backlit Fabric Display

Introducing the Lux Lightbox! A combination of innovative silicone-edge graphics and Stretch fabric pop ups offers an easier and more cost-effective SEG option. Multiple Lux Lightboxes can be

connected together to create a larger backwall. Also, this SEG style display has the depth of the Stretch Fabric Display so you can expose more of your message using add-on endcap graphics. The Lux Lightbox shrinks down in size - simply collapse the geometric frame and the SEG bungeed channel bars, and fold or roll the fabric graphics. Setup can be done by one person in 25 minutes. SEG portability is easy and stylish.

**Ladder lights are installed on one side of the frame only. Single and double-sided displays use the same quantity of lights. Lights do not need to be installed on the backside of the frame for double-sided graphics.*
