[20 x 60 Gilna Rail Double Deck Truss Display System](#)

20 x 60 Gilna Rail Double Deck Truss Display System

The 20 x 60 Gilna Rail design offers a central lounge area and casual spaces on either side. It has over 550 sq. ft. of deck space with 2 straight stairways and landings. Downstairs, the stairways are funneled to a center controlled entry space. 2 large counters are centered on the left and right side for meeting and evaluating new prospects. Monitors and large graphics tell the tale on the backwall while demos are handled on the front 2 center legs with column mount workstations. And literature is dispensed off the end columns. This will fit in a 50' wide space.

Includes structural truss system, stairs, wall frames, rails, deck boards, lights, ceilings, 1/4" frosted plex rail infills, unprinted sintra infills and wall panels and 7 crates
est. weight 10,000 pounds

[30 x 40 Eco-whats Double Deck Truss Display System](#)

30 x 40 Eco-whats Double Deck Truss Display System

The 30 x 40 Eco-whats design utilizes two 13 x 13 decks with a split staircase. Since the decks are separate, they each have the occupancy of a deck with one staircase. This is an excellent design for companies with 2 distinct product lines. Downstairs each side is kitted out with EZ6 shelving and a product table! 4 demo stations are positioned on the legs on the sides and back. Access storage is under the large landing. ID is accomplished with four bowed Hyperlite signs and large graphic panels on the back.

Includes structural truss system, stairs, wall frames and doors, rails, deck boards, lights, ceilings,

1/4" frosted plex rail infills, Hyperlite signs with fabric graphics, unprinted sintra infills and wall panels and 7 crates - est. weight 10,000 pounds

[20 x 20 Trussworks Double Deck Truss Display System](#)

20 x 20 Trussworks Double Deck Truss Display System

The 20 x 20 Trussworks design combines the 13 x 13 deck with a straight staircase and landing for a private meeting area without taking up floor space. An in-facing slatwall panel with a graphic facing out and a double-sided kiosk at the front of the booth space bring wall space to the open aisles creating a comfortable discussion area below the deck. There is a storage closet under the stair landing.

Includes structural truss system, stairs, wall frames and doors, rails, deck boards, lights, ceilings, 1/4" frosted plex rail infills, Hyperlite signs with fabric graphics, unprinted Sintra infills and wall panels and 3 crates

[20 x 20 Mercen Double Deck Truss Display System](#)

20 x 20 Mercent Double Deck Truss Display System

The 20 x 20 Mercent design is the 9 x 17 deck with a straight staircase and landing tucked behind a wall. Upstairs is large enough to create 2 distinct meeting areas or host a private cocktail party. Downstairs is a very open booth with a single wall as the focal point. In this design, we created a coffee bar with 3 monitors running company promo material above the server. Demos run at the front columns. There is a storage closet under the stair landing. Large bowed Hyperlite signs highlight your brand!

Includes structural truss system, stairs, wall frames and doors, rails, deck boards, lights, ceilings, 1/4" frosted plex rail infills, Hyperlite signs with fabric graphics, unprinted Sintra infills and wall panels and 3 crates
est. weight 5,000 pounds
