

## [Impact 10 x 7.5 Lux Lightbox Backlit Fabric Display](#)

### **Impact 10 x 7.5 Lux Lightbox Backlit Fabric Display**

Introducing the Lux Lightbox! A combination of innovative silicone-edge graphics and Stretch fabric pop ups offers an easier and more cost-effective SEG option.

Multiple Lux Lightboxes can be connected together to create a larger backwall.

Also, this SEG style display has the depth of the Stretch Fabric Display so you can expose more of your message using add-on endcap graphics.

The Lux Lightbox shrinks down in size - simply collapse the geometric frame and the SEG bungeed channel bars, and fold or roll the fabric graphics. Setup can be done by one person in 25 minutes. SEG portability is easy and stylish.

\*Ladder lights are installed on one side of the frame only. Single and double-sided displays use the same quantity of lights. Lights do not need to be installed on the backside of the frame for double-sided graphics.

\*Hard case options will hold 1 frame w/bag, channel bars w/bags and a full set of LED ladder lights with transformers, clips, etc for frame sizes up to 10' x 7.5'
