

Top .5" will be covered by clamp

## IMPACT L-36 BANNER

It's good to keep important artwork elements (logos, text, foreground images, etc.) within the inner green dashed line.

### Trim/Crop Size

36" x 83.5"

### Graphic Size with Bleed

(Background should extend to here, will be trimmed)

37" x 84.5"

- CMYK color
- Resolutions must be 100-150ppi
- All fonts must be converted to outlines (Illustrator)
- Embed all images in final document (Illustrator)
- Delete all template layers and save only your artwork as high-res JPEG or PDF for print
- No trim or printer marks are necessary (we add them here)

While designing, it's a good idea to zoom to 100% and scroll throughout layout to check artwork print quality.

Designers: Final layout should be proofed with client before being sent in for printing.

Bottom .5" will be covered by clamp
